Introducing our **NEW** product.

Our new range includes fully eco designs developed from existing product, and brand new developments designed to replace a number of existing products. There are also a number of designs that will remain in our range, but under new, more descriptive names.

These changes provide better value for money for parents and an increase in quality – something we always strive to achieve. The changes in place also work towards a simplified experience for both you and the parents who purchase their uniform from you. Product names now reflect the style aspect of the product, keeping them relevant and descriptive. And in these new and improved products, comes cohesion in both design and sizing so you can be sure that all Banner products you purchase are consistent.

What does this mean for you?

We've made sure that the changes we've made won't impact you or your business. All it means is a simple switch from one product to another.

Run outs & **switching to new**

Our 'Make the switch' icon indicates that you have the option to replace your run out products with our new and improved products.

Sustainability at Banner

Since our journey began, we've had a clear vision. We want every garment we produce to make a positive impact on our planet, the people we work with and the students who ultimately wear our products every day.

Our sustainability journey began in 2019 when we set about embracing our responsibility to do the right thing for our planet and future generations. We decided to transform our approach to sustainability and put these challenges right at the heart of our business, starting with our products.

Our six sustainability pillars

To help us achieve our sustainability goals, we've developed a very clear and holistic sustainability strategy built on six key pillars.

Fast forward to today and we're now proud to offer our customers the biggest and broadest range of schoolwear and sportswear that's responsibly sourced and manufactured with sustainable materials.

In September 2021, we joined the Better Cotton initiative to improve global cotton production for people, the environment, and the industry's future. Better Cotton aims to enhance cotton communities and preserve the environment, using a mass balance system for sourcing that isn't directly traceable to end products.

Our goal is to source 50% of our cotton as Better Cotton by 2025. As of December 31, 2022, we've achieved 21.52% Better Cotton uptake, while also conserving 126,842,100 liters of water and preventing 77 kg of pesticides.

This coming year, 75% of our product range will be produced using sustainable fabrics, meaning we are even closer to our goal of offering a 100% Eco product range by 2025!

Setting the standard in ethical sourcing.

We're confident we've developed the most sustainable and ethical supply chain in our industry, backed up by strong independent accreditations. Since 2006, we've been a member of Sedex (Supplier Ethical Data Exchange), one of the world's leading ethical trade service providers, as part of our commitment to improving the working conditions in global supply chains.

Our Environment

The environment and low carbon principles are a huge focus of our sustainability strategy. And while we've achieved a lot so far, we intend to go bigger, better and bolder with our environmental commitments, investing in projects that reduce our emissions and reduce or eliminate any detrimental impact on biodiversity.

Simply scan the QR code or click here to view the report.

Our work so far has resulted in us becoming the first UK schoolwear supplier to set Sedex 4-Pillar as the minimum audit standard for all our suppliers to comply with. This means all our suppliers are independently assessed to the highest requirements in crucial areas such as fair pay, labour standards, health & safety, business ethics and environmental impact.

We're continually working to improve all aspects of our environmental and social responsibility, minimising the impacts of our operations on the planet, while at the same time optimising the benefits of what we do for our people and the people we work with. It's why we're recognised as the schoolwear supplier that's leading the way in sustainability.

Personalisation

We want students to stand out for all the right reasons. That's why our professionally designed ranges can be personalised with logos and trims to create the perfect look for schools.

We offer embroidery artwork design, embroidered samples and visual design boards showcasing products with embroidery for schools wanting to change uniform and sportswear.

Trim, Cording & Braiding

Adding trim to garments offers that individual touch for schools wanting to stand out. Options we offer include bound, taped, corded edges and inserted braid trim in a huge array of colours.

Stripes

Adding stripe trim in one or two stripe options to the neck, cuffs, welt and stolling of all our knitwear provides added personalisation for schools which can either complement or contrast with blazer and jacket trims.

Jacquard lining adds the quality finishing touch to many of our tailored blazer and suiting jackets. For a complete bespoke look, we also offer bespoke coloured lining options to suit your requirements.

APTUS Essentials

The Essentials senior collection offers the same range of versatile garments as the junior collection but with additional items such as our Essentials Skort and Multisport Shirt to create a fully adaptable sportskit for older students.

Sharing the same APTUS DNA, the Essentials range can be co-ordinated with our Performance range. Access to both collections allows customers to find the perfect balance between technicality and functionality.

We've added sustainability to the APTUS DNA. All APTUS garments, including the Essentials senior collection, are made from recycled materials. A full kit will save over 30 plastic bottles from going to waste.
